

P Series VSI Crusher

Link: [Gallery](#) [Get this product price](#)

The P Series VSI Crusher is commonly referred to sand making machine, it is the latest high-energy and low-consumption sand making machine developed on basis of many years ore equipments manufacturing and absorbing principles of the Bamako vertical impact sand making machine. P Series VSI Crusher plays an important role in artificial sand making and mineral crushing.

Features of P Series VSI Crusher

1. Simple structure and low operating costs;
2. Low consumption and six models to 320KW;
3. Function of fine crushing and coarse grinding;
4. Slightly influenced by moisture content of material, and the max moisture content is about 8%;
5. More suitable for crushing mid-hardness and hardness materials;
6. Cubic shape of final products, high density of piling up and low iron pollution;
7. Low maintenance and lower wear cost;
8. Low working noise (lower than 75 decibel) and light dust pollution.

Application of P Series VSI Crusher

P Series VSI Crusher is widely used in fine crushing of various ore, especially suitable for making abrasive filler, quartz sand, emery, fire resistant materials, cement, copper ore, furnace slag, river gravel, concrete aggregate, asphalt aggregate and other hard materials to be implemented fine crushing and medium fine crushing. It is a high-efficient sand crushing and sand making machine, which has become the major equipment in sand making industry instead of hammer crusher, roll crusher, roll mill and others.

Technical Data of P Series VSI Crusher

Model	Rotate speed of impeller (r/min)	Max feed size (mm)	Power (kW)	Weight (t)	Capacity (t/h)	Overall dimensions (mm)
P-600	2000-2600	30	2×30	5.6	10-30	2800×1550×2030
P-750	1600-2100	35	2×45	7.5	30-50	3300×1800×2440
P-900	1300-1700	40	2×55	12	50-80	3750×2120×2660
P-1050	1100-1450	45	2×110	16	70-120	4480×2450×2906
P-1250	950-1200	45	2×132	22	80-150	4563×2650×3176
P-1350	800-1200	50	2×160	26	120-200	5340×2940×3650

Note: Any change of P Series VSI Crusher technical data shall not be advised additionally.
